#### DESCRIPTION

Osmocote® Plus controlled release fertiliser contains NPK macronutrients as well as essential trace elements in one granule. Osmocote® Plus can thus provide a delivery of plant nutrients over the longevity periods indicated. Designed specifically for Phosphorus sensitive crops. This product can be mixed in, topdressed or dibbled in the planting hole. Osmocote® Plus is effective in all commonly used substrates and the release of nutrients is not influenced by pH, salt concentration or water quantity.

Suggested application rates	Tube stock	Potted Crops	In ground planting
P sensitive (grev., Prot. etc)	1.0-2.0kg/m <sup>3</sup>	3.0-4.0kg/m <sup>3</sup>	
General low P	1.5-3.0kg/m <sup>3</sup>	4.0-5.0kg/m <sup>3</sup>	
In ground: planting annually			50g/plant 100g/plant

These rates are based on unfertilised potting substrates or soils. pH has to be adjusted according to crop requirements. For more detailed instructions for use see relevant product brochures
