GUARANTEED ANALYSIS:

19.0 % Nitrogen (N)	
1.0 % nitrate nitrogen	
2.7 % ammoniacal nitrogen	
15.3 % ureic nitrogen	
4.0 % Phosphorus (P)	
Soluble in neutral ammonium citrate and water	
3.5 % P water soluble	
8.0 % Potassium (K)	
Water soluble (chloride free)	
4.4 % Sulphur (S)	present as sulphates
2.4 % Magnesium (Mg)	present as Sulphate and Oxide

Average soil temperature	Longevity
11°C	12-14 Months
21°C	8-9 Months
26°C	6-7 Months

The longevity at 21°C is based on laboratory testing.

NOTICE

Warranty of this material either expressed or implied is limited to a guarantee of the composition as shown on the label in as much as uses are beyond the sellers control. For the same reason seller is not liable for any injury to living things, crops, soils, or materials which may result from the use or storage of this material.

CAUTION

Harmful if swallowed. Do not inhale. Keep out of reach of children. Store under dry conditions. Partly used bags should be closed well.

TRIAL BEFORE CHANGE

Before a new rate, product or application method is used, a small trial is recommended.

REPACKAGING

Not allowed without written approval from Scotts Australia Pty Ltd.

DESCRIPTION

Agroblen® Controlled Release fertiliser for Fruit tree and Vine Planting is designed in Australia for establishment and full, first season nutrition of fruit trees and grape vines. Agroblen® fertiliser provides a balanced, metered delivery of plant nutrients over the time period indicated at the average soil temperatures. Agroblen® is effective in a wide range of soil types especially in open sandy soils. Release of nutrients is not influenced by pH, salt concentration or water quantity.

Suggested application rates	In planting hole		
Grape vines	40-100g/plant		
Pomme fruits	100-150g/plant		
Stone fruits	75-125g/plant		
Avocado	125-175g/plant		
Berries	50-75g/plant		

Agroblen® is being advised for use in crops grown in situ. When using the dibble application method use only plant material with a strong root system. Ensure product is not caught in plant crown or leaf axils when topdressed. After planting irrigate well (15mm). Refer to the Agroblen® brochure for crop specific and detailed planting information.
