

Agroblen®

Controlled Release Fertilizer

NS Standard

15+3.5+13.3+3.3Mg

Controlled Release Fertiliser

GUARANTEED ANALYSIS:

15.0 % Nitrogen (N)	
1.1 % nitrate nitrogen	
2.9 % ammoniacal nitrogen	
11.0 % ureic nitrogen	
3.5 % Phosphorus (P)	
Soluble in neutral ammonium citrate and water	
3.2 % P water soluble	
13.3 % Potassium (K)	
Water soluble (chloride free)	
3.3 % Magnesium (Mg)	present as Sulphate and Oxide

Average soil temperature	Longevity
16°C	6 Months
21°C	5-6 Months
26°C	5 Months

The longevity at 21°C is based on laboratory testing.

NOTICE

Warranty of this material either expressed or implied is limited to a guarantee of the composition as shown on the label in as much as uses are beyond the sellers control. For the same reason seller is not liable for any injury to living things, crops, soils, or materials which may result from the use or storage of this material.

CAUTION

Harmful if swallowed. Do not inhale. Keep out of reach of children. Store under dry conditions. Partly used bags should be closed well.

TRIAL BEFORE CHANGE

Before a new rate, product or application method is used, a small trial is recommended.

REPACKAGING

Not allowed without written approval from Scotts Australia Pty Ltd.

DESCRIPTION

Agroblen® Controlled Release NPK fertiliser for medium term crops is specifically designed in Australia for establishment and full season nutrition of cutflower and vegetable crops. Agroblen® fertiliser provides a balanced, metered delivery of plant nutrients over the time period indicated at the average soil temperatures. Agroblen® is effective in a wide range of soil types especially in open sandy soils. Release of nutrients is not influenced by pH, salt concentration or water quantity.

Suggested application rates	Heavy soils	Medium soils	Light sandy soils
Cutflowers and vegetables with liquid feed	300-400kg/ha	400-600kg/ha	600-700kg/ha
full nutrition	400-500kg/ha	500-700kg/ha	700-800kg/ha
Tomato, Capsicum	15-20g/plant	400-500kg/ha	30-35g/plant
Flower bulbs	400kg/ha	500kg/ha	700kg/ha

Agroblen® is being advised for use in crops grown in situ. When using the dibble application method use only plant material with a strong root system. Ensure product is not caught in plant crown or leaf axils when topdressed. After planting irrigate well (15mm). Refer to the Agroblen® brochure for crop specific and detailed planting information.
