CONCENTRATED**Greenmaster Liquid**

GREENMASTER LIQUID AUTUMN is a high quality, high potash NPK fertilizer solution containing trace elements for use on all turf surfaces. It is formulated with a two-to-one potash to nitrogen ratio to harden growth and discourage disease. It is designed for autumn and winter use but may be used year-round where extra potash is required and growth hardened.

RECOMMENDATIONS FOR USE

LIQUID AUTUMN may be applied as frequently as required throughout the year. It is particularly suitable for use in Autumn months and on sandy soils where extra potash is required. Apply alone or as a tank mix with other GREENMASTER LIQUIDS as directed below to give the required fertilizer application.

(1) LIQUID AUTUMN used alone provides the following fertilizer applications.

Kg Plant Nutrient Per ha (approx.) @								
Low Rate 3.0 L/1000m ²			Medium Rate 4.5 L/1000m ²			High Rate 8.0 L/1000m ²		
N	P	K	N	P	K	N	P	K
3.3	0.7	5.5	5.0	1.1	8.2	8.8	1.9	14.7

(2) LIQUID AUTUMN may be combined with GREENMASTER LIQUID HIGH N at the same reduced dose rates in a tank mix to provide the following additional fertilizer applications.

Kg Plant Nutrient Per ha (approx.) @								
Low Rate 1.5 + 1.5 L/1000m ²			Medium Rate 2.3 + 2.3 L/1000m ²			High Rate 4.0 + 4.0 L/1000m ²		
N	P	K	N	P	K	N	P	K
5.8	0.4	2.7	8.9	0.6	4.2	15.4	1.0	7.3

WATER RATE

Apply the chosen quantity of liquid fertilizer to your turf in a water volume of 40-100 L/1000m² or 400-1000 L/ha.

A Safety data sheet is available for the professional user on request.

COVERAGE (litres product required)

Area Treated	Low Feed Rate	Medium Feed Rate	High Feed Rate
Tennis court - regulation (262m ²)	0.8	1.2	2.0
Golf green (500m ²)	1.5	2.3	4.0
Bowls green - six rink (1,475m ²)	4.4	6.6	11.8
1000m ²	3	4.5	8.0
One Hectare	30	45	80

CONDITIONS

For best results high rates of LIQUID AUTUMN should be watered in after application or applied when rain is expected. Do not apply to frozen ground or to turf under drought stress. This product is only intended for the uses described above. For information, this product also contains Iron (1.0%).

GUARANTEED ANALYSIS
NPK FERTILIZER SOLUTION 8+1.7+13.3
 with Trace Elements

Nitrogen (N) total	8.0%
Ureic nitrogen (N)	8.0%
Phosphorus (P) soluble in water	1.7%
Potassium (K) soluble in water	13.3%
Iron (Fe) soluble in water	1.0%
all chelated by EDTA	

Store between 0°C and 30°C
