Greenmaster Liquid®

**GREENMASTER LIQUID SPRING & SUMMER** is a high quality NPK fertilizer solution containing trace elements for use on all turf surfaces. It is formulated to give strong balanced growth and to replenish nutrients removed in clippings. It is ideal for use as the regular maintenance feed without promoting excessive growth.

**RECOMMENDATIONS FOR USE**

LIQUID SPRING & SUMMER may be applied as frequently as required. Apply alone or as a tank mix with other GREENMASTER LIQUIDS as directed below to give the required fertilizer applications.

(1) LIQUID SPRING & SUMMER used alone provides the following fertilizer applications.

Kg Plant Nutrient Per ha (approx.) @								
Low Rate 3.0 L/1000m <sup>2</sup>			Medium Rate 4.5 L/1000m <sup>2</sup>			High Rate 8.0 L/1000m <sup>2</sup>		
N	P	K	N	P	K	N	P	K
5.3	0.5	3.2	7.9	0.7	4.6	14	1.3	8.3

(2) LIQUID SPRING & SUMMER may be combined with GREENMASTER LIQUID HIGH N at the same reduced dose rates in a tank mix to provide the following additional fertilizer applications.

Kg Plant Nutrient Per ha (approx.) @								
Low Rate 1.5 + 1.5 L/1000m <sup>2</sup>			Medium Rate 2.3 + 2.3 L/1000m <sup>2</sup>			High Rate 4.0 + 4.0 L/1000m <sup>2</sup>		
N	P	K	N	P	K	N	P	K
6.7	0.3	1.6	10.3	0.4	2.4	18.0	0.7	4.2

**WATER RATE**

Apply the chosen quantity of liquid fertilizer to your turf in a water volume of 40-100 L/1000m<sup>2</sup> or 400-1000 L/ha.

A Safety data sheet is available for the professional user on request.

Detailed information on use and storage is available from your stockist, Scotts Australia Professional representative or our Technical Manager at the address given in the fertilizer declaration box. Because of the concentrated nature of this product, some crystallisation may be observed if it is stored below 4°C. This will not affect product efficacy, but for ease of use we recommend that the product be kept at a temperature higher than 5°C for 24 hours before dilution. The product may be used with crystals present, but should be mixed well.

**COVERAGE** (litres product required)

Area Treated	Low Feed Rate	Medium Feed Rate	High Feed Rate
Tennis court - regulation (262m <sup>2</sup> )	0.8	1.2	2.0
Golf green (500m <sup>2</sup> )	1.5	2.3	4.0
Bowls green - six rink (1,475m <sup>2</sup> )	4.4	6.6	11.8
1000m <sup>2</sup>	3	4.5	8.0
One Hectare	30	45	80

**CONDITIONS**

For best results high rates of LIQUID SPRING & SUMMER should be watered in after application or applied when rain is expected. Do not apply to frozen ground or to turf under drought stress. This product is only intended for the uses described above. For information, this product also contains Manganese (70mg/kg), Zinc (140mg/kg), Copper (20mg/kg), Boron & Molybdenum.

**GUARANTEED ANALYSIS**  
**NPK FERTILIZER SOLUTION 14 + 1.3 + 8.3**  
 with Trace Elements

Nitrogen (N) total	14.0%
Ureic nitrogen (N)	14.0%
Phosphorus (P) soluble in water	1.3%
Potassium (K) soluble in water	8.3%
Zinc (Zn) soluble in water	0.014%
Copper (Cu) soluble in water	0.002%
Manganese (Mn) soluble in water	0.007%
Molybdenum (Mo) soluble in water	0.0007%
Store between 0°C and 30°C
