Guaranteed! WON'T BURN LAWN

USE LESS, FEED MORE

LAWN BUILDER = TRADITIONAL FERTILISER

Scotts® Landscaper PRO

LAWN BUILDER™ Regular

Scotts Landscaper PRO Lawn Builder Regular is a slow release fertiliser used by professional turf managers and home gardeners around the world to build thicker, greener lawns and recreational turf. Unlike traditional fertilisers, every particle of Scotts Landscaper PRO Lawn Builder contains Scotts patented timed-release Nitrogen, plus Phosphorus and Potassium that are formulated to release nutrients just as your lawn needs them.

- ✓ Your lawn will be greener and stay greener for up to 10 weeks
- ✓ Controlled feeding eliminates waste, prevents burning and surge growth

DIRECTIONS FOR USE

When to Apply

Apply anytime of year. For best results apply three times per year. • Early Spring • Early Summer • Autumn

Application Tips

- Apply evenly at the rate of 18g/m². Fertiliser granules should be spaced a few mm apart.
- For best results use a Scotts Spreader, however if applying by hand ensure even distribution.
- Sweep excess granules off paths, driveways, shoes etc. to avoid iron stains. See important note.
- Do not use on new turf less than 8 weeks old.
- Use half of the suggested rate for summer application on cool season grasses, e.g. Bent grass.
- Fertiliser application should be avoided if temperature is expected to exceed 30°C.
- Lawn Builder is not recommended for use on other plants.

How to Apply

*** Dry Method:** During water restriction periods, apply to lawn without watering in. Lawn Builder is safe on lawn until next rain or watering, when evenly and correctly applied with a spreader. Guaranteed to green the lawn within one week of obtaining moisture. **Fast Method:** Greener in 2 days with watering. For fast results apply to moist foliage, wait 24 hours then water in thoroughly.

GUARANTEED ANALYSIS

Nutrient	Guaranteed Analysis %
Total Nitrogen (N)	21.6%
N as Ammoniacal Nitrogen	1.2%
N as Ureic Nitrogen	8.4%
