

Osmocote® Fe

Controlled Release Fertilizer

28% Iron

Controlled Release Fertiliser

GUARANTEED ANALYSIS:

- 17.0 % Sulphur (S) present as sulphates
- 28.0 % Iron (Fe) present as Iron Sulphate
- 9.5 % Organic resin coating based on vegetable oils

Average soil temperature	Longevity
16°C	4-5 Months
21°C	3-4 Months
31°C	1.5-2 Months

The longevity at 21°C is based on laboratory testing.

NOTICE

Warranty of this material either expressed or implied is limited to a guarantee of the composition as shown on the label in as much as uses are beyond the sellers control. For the same reason seller is not liable for any injury to living things, crops, soils, or materials which may result from the use or storage of this material.

CAUTION

Harmful if swallowed. Do not inhale. Keep out of reach of children. Store under dry conditions. Partly used bags should be closed well.

TRIAL BEFORE CHANGE

Before a new rate, product or application method is used, a small trial is recommended.

REPACKAGING

Not allowed without written approval from Scotts Australia Pty Ltd.

DESCRIPTION

Osmocote® Fe consists of granules of soluble iron sulphate, which have been encapsulated in an organic resin coating. Osmocote® Fe controlled release plant nutrient gives a prolonged release of essential iron and is available for plants at pH values below 6.5. Osmocote® Fe should be applied at potting time so that a deficiency is prevented. Osmocote® Fe should be incorporated into the growing media. The release of nutrients is not influenced by pH, salt concentration or water quantity.

DO NOT DIBBLE APPLY THIS PRODUCT.

Suggested application rates	Light feeding crops	Medium feeding crops	Heavy feeding crops
Container nursery stock Mixed potsize	300g/m ³	500g/m ³	800g/m ³
4"-5"	0.3-0.5g	0.5-0.7g	0.8-0.9g
6"-9"	0.7-1.5g	0.9-2.5g	1.3-4.0g
8"-10"	1.5-2.5g	2.5-4.0g	4.0-5.5g

These rates are based on unfertilised potting substrates or soil. pH has to be adjusted according to crop requirements. Form ore detailed instructions for use see relevant brochures. For controlled growth of short term flowering crops. Do not use in potsizes smaller than 125mm (1litre).
